QUALITY POLICY

At Aeternis International, quality is the foundation of everything we do. We are committed to delivering high-quality gypsum products and solutions that meet international standards and exceed customer expectations.

We use **premium raw materials** and advanced technology to ensure consistent quality and performance.

We **empower our people** through training, teamwork, and accountability to deliver excellence every day.

We follow a **robust quality management** system and continuously improve our processes.

We are committed to **sustainability, safety**, and responsible manufacturing.

We build long-term relationships through **trust, transparency**, and consistent quality.

WHY AETERNIS INTERNATIONAL?

A perfect blend of expertise, creativity, and innovation, Aeternis International stands as a trusted partner for high-performance gypsum products and solutions.

EXPERTISE & INNOVATION

Years of experience combined with continuous innovation to deliver superior products and solutions.

PREMIUM QUALITY

International-grade materials and advanced manufacturing ensure unmatched quality and reliability.

CUSTOMER FOCUS

Customer satisfaction is our priority. We deliver tailored solutions that meet diverse design and project needs.

COST EFFICIENCY

Optimized processes and efficient operations ensure competitive pricing without compromising quality.

TRUST & INTEGRITY

Built on strong values, we are committed to transparency, ethical practices, and long-term partnerships.

QUALITY ASSURANCE & TESTING

At Aeternis International, quality is not just a promise – it's a process we follow at every stage. Our state-of-the-art in-house laboratory is equipped with advanced instruments and testing facilities to ensure our products meet global standards for strength, safety, and durability.

RAW MATERIAL TESTING

Ensuring purity and consistency

IN-PROCESS CONTROL

Monitoring every stage of production

FINISHED PRODUCT TESTING

Checking strength, finish & performance

INTERNATIONAL STANDARDS

Compliant with ASTM, EN & BIS norms

Globally Trusted. Delivered with Excellence.

Supplying premium gypsum solutions to 50+ countries worldwide.

Proudly manufactured in Morbi, Gujarat, India.

Reliable logistics and on-time delivery, every time.

Building lasting partnerships across the globe.

Gypsum Board

Gypsum board, commonly known as drywall, is a reliable and versatile building material used in modern construction for walls, ceilings, and partition systems. It consists of a gypsum core encased in durable paper facing on both sides, offering a smooth finish, excellent strength, and ease of installation. Designed for efficiency and performance, it is the ideal choice for a wide range of interior applications.

STRONG CORE.

High-quality gypsum core for strength and durability.

SMOOTH FINISH.

Superior surface for easy finishing and painting.

RELIABLE PERFORMANCE.

Consistent quality for long-lasting results in every project.

PREMIUM GYPSUM BOARDS
FOR MODERN CONSTRUCTION.

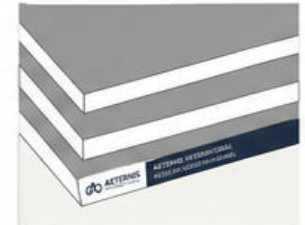

Aeternis International's product range encompasses a wide variety of gypsum boards, gypsum plaster, associated finishing materials, and accessories. We manufacture specialized products such as Regular (RG) Board, Fire-Resistant (FR) Board, and Moisture-Resistant (MR) Board to suit diverse interior design needs and aesthetics. With a carefully curated selection of premium raw materials sourced from leading global suppliers, we guarantee high-performance solutions tailored to architects and interior designers, empowering them to elevate every space with style and substance.

REGULAR BOARD

PARAMETER	SPECIFICATION
Thickness (mm)	9.5 12.5
Size (mm)	1220 x 1830 1220 x 2440
Board Color	Front: Ivory Back: Grey
Edge Type	SE  TE 
Thermal Conductivity	0.19 w/mK

-  Provides various design innovation in building infrastructure
-  Cost effective and quality solution
-  Suitable for paints, texture and wall covering materials

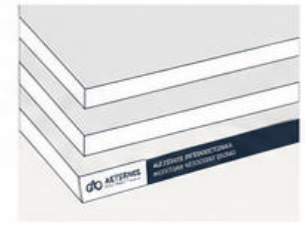

*SE-Square Edge, *TE-Tapered Edge

HEAT GUARD

PARAMETER	SPECIFICATION
Thickness (mm)	9.5 12.5
Size (mm)	1220 x 1830 1220 x 2440
Board Color	Front: Ivory Back: Silver
Edge Type	SE  TE 
Thermal Conductivity	0.24 w/mK

-  Reduce flame, temperature spread and smoke generation
-  Fire repellent additives are used in the core
-  Used where high level of fire protection is required

*SE-Square Edge, *TE-Tapered Edge

MOISTURE RESISTANT

PARAMETER	SPECIFICATION
Thickness (mm)	9.5 12.5
Size (mm)	1220 x 1830 1220 x 2440
Board Color	Front: Green Back: Grey
Edge Type	SE  TE 
Thermal Conductivity	0.19 w/mK

-  It absorbs less moisture when exposed to moist environment as compared to other boards
-  Used directly without other board beneath
-  It is used in kitchen, washroom, toilet and other moist areas

*SE-Square Edge, *TE-Tapered Edge

AETERNIS GYPSHEET HAS 3 CATEGORIES OF BOARD

- RG Board is cost effective and standard solution for interior applications like ceilings and partitions
- FR Board is used to reduce flame & temperature spread making them an ideal choice for fire sensitive areas
- MR Board acts as moisture repellent when exposed to direct moisture & humid atmosphere
